

Women's Community Wellness Forum

Monday September 14th, 2015

6:00pm - 9:00 pm

BACKGROUND:

*In our society, women are the center of all things.
We have been given the ability to create;
We are life givers, nurturers and we have
responsibilities to ourselves, each other and
our communities.*

*Traditionally, women received formal instruction
on all things. It isn't that way today...
Collectively, we can change that.*

*This gathering will help us to share our concerns
and reclaim our voices with a Good Mind and
work together to "Build a Healthier Community".*
