

Friends of the Middle River

2018 Float Trips

FOMR's monthly float trips cover a variety of stretches of the Middle River in Augusta County. The goal of offering these trips is to familiarize participants with different boatable sections of the river and the available put-in and take-out sites that participants can use in the future if they join FOMR's River Access Program. The Middle River is a quiet river—great for beginners and kids.

By joining the River Access Program—which is currently a free program—you get a River Access Permit and a put-in/take-out contact list that helps you secure permission to use the private lands of participating landowners to gain access to the Middle River. (The Middle River has almost NO public access. That's why we are starting this program!)

FOMR is a Paddle America Club (PAC) member of the American Canoe Association (ACA). All of FOMR's floats follow the safety and insurance guidelines of the ACA. One guideline is that each participant must be member of the ACA, even if just for the day. Membership in the ACA provides trip insurance for floats. The cost of that insurance varies from \$5 for one day to \$30 for a full year.

FOMR charges \$10 per person per float trip. Participants bring their own kayaks or canoes and other equipment. Your float fee buys you a \$5 ACA one-day insurance coverage membership and \$5 worth of FOMR raffle tickets. If you *already* are a member of the ACA, you will receive \$10 worth of raffle tickets! Join us this year, and see more of the Middle River as never before!

To sign up for a trip, email us at info@friendsofthemiddleriver.org.

Planned date	River Section	River Miles
