16 March 2023 | Seven Villa Hotel & Spa, Johannesburg

What is Datalytics '23?

Datalytics '23 is the evolution of Dalebrook Media's Data Leaders Exchange event. Honestly, we just think it's a cooler name!

But, we're not changing the core philosophy of the event - engaging conversations for a limited number of data analytics leaders.

Once again the event will be held in Johannesburg and Cape Town to ensure our communities across both cities have the chance to learn from and network with each other.

The format will continue to be panel conversations that have our speakers sharing their experiences with the audience and the audience sharing their experiences with each other.

The Johannesburg event will have 30 speakers and 60 attendees. The Cape Town event will have 30 speakers and 40 attendees. Our main sponsors will have access to all 160 attendees over the course of the two days and two cities.
