FOURTH QUARTER

To many people, the 4th Quarter symbolizes a time for family, friends, and holiday cheer. For others, it is a time for planning and preparation for the new year to come. But for individuals facing critical life challenges, the fourth quarter carries with it the potential to be the deadliest time of the year. Incidents of domestic violence, suicide, and child abuse increase exponentially between Thanksgiving and New Year's day. The spikes are often linked to increased drug and alcohol consumption combined with the added pressures and financial strains associated with the holiday season.

If you or someone you know is facing domestic violence and is contemplating leaving the relationship but is unsure about where to begin, this book can help.

Sustainable Life Change Institute and 9Seconds Corporation have partnered up to provide this **DOWNLOADABLE FREE E-BOOK.**

The book provides practical tips to assist in the development of a sound safety plan.
