The vastness of Lapland makes a person feel small. Getting to roam large wilderness areas on your own is ideal for soul searching and finding your place in life. People have thousands of legends about her, but nobody has managed to thaw her heart.

In this journey children and parents become a part of an adventure. Together with a local guide you will try to find her Ice Castle in the wilderness, fight road burglars along the way, and hopefully get the right directions from a mischievous shaman. Will you survive and return home safe or will you become another ice sculpture in Snow Queen's fortress? To be continued...

IN SEARCH OF THE NORTHERN LIGHTS WITH PICNIC

Eager to see the Northern Lights? This 3-hour adventure from Rovaniemi ups your chances of witnessing this extraordinary natural phenomenon. Look for the lights, and if luck is on your side, enjoy a memorable display of the luminescent ribbons as they dance overhead.

DURATION: ~3 h

INCLUDES: Vehicle with english speaking driver-guide, snacks by camp fire, tea/coffee.

THE NORTHERN LIGHTS FLIGHT

Aurora Borealis is “dancing” on the Arctic sky from 80-90% of the dark nights. The phenomenon is not always available to witness from the ground, clouds block the visibility and keep us waiting. Don’t miss your chance to see the lights on your precious holiday time! The Northern Light Flight will climb above the clouds and fly you closer to admire this natural wonder.

The transfer will pick you up from the hotel reception (Rovaniemi central area hotels) and bring you to Rovaniemi airport. Piper PA31 private jet has 7 passenger seats and two pilots will be taking good care of you while chasing the lights. Flight time is around 1 hour, including takeoff and landing. You will be transferred back to the hotel – hopefully with good memories and camera shots.

ARCTIC HIKE

3 hrs. outdoors program

The white, pure snow invites to explore the nature. You can try out snowshoes and learn about the nature and some wilderness skills, like making a camp fire.

In Lapland, we have approximately one meter of snow in the mid-winter time. This white winter gown of winter is amazing at all times within the winter. During the darkest time in December and January we enjoy the hazy purples and blues while in February and March at this time of the day you most likely enjoy bright daylight.

We take a light hike on a trail leading us to a shelter in the forest. Here you are surrounded by deep snow and it is hard to get around on foot. However, with snowshoes you can hike in deep snow, without sinking too much. There are snowshoes at the shelter and you can try out hiking in the snowy nature.

Let's enjoy the small miracles of nature, like hanging moss on the trees, snowdrifts creating fairy tale figures and maybe even some birds or trails of arctic animals. Your guide is happy to share his / her wilderness skills with you, for example how to make a fire.

As we enjoy a small strengthening snack by the fire, you can take the opportunity to ask your guide about the nature and the winter in Lapland.

INCLUDES: return transfers from your accommodation (except hotels in Rovaniemi city centre), winter clothing, guided snowmobile safari according to program description and given information.

Every adventure must start on a full stomach, so we enjoy our breakfast first. Then it is gear on and ready to go! Our adventure starts directly from the hotel where all the snowmobiles are already waiting. Every client is issued with their own bag that is tied onto the snowmobiles. Your guide will then go through all the driving and safety instructions you will need to know for this tour. We make our way through varying landscapes and speed along the forest tracks on our way north. Lunch is enjoyed at an indoor location along the way. Today's tour will take you across frozen lakes and marshlands, twisting routes and backwood trails. A full day of snowmobiling in altering terrains and great sceneries

At the cabin you will be able to again enjoy a warm sauna and delicious meal. If you feel brave, you can try the Finnish tradition of rolling in the snow between steaming in the sauna.

Day 4: Southern bound (100-200km)

After a good breakfast, we turn our way South and head towards the massive lake Inari. We use alternative routes and find more thrills. After a while, we arrive on the edge of Lake Inari. Crossing the lake is for many one of the high-points of this tour. The powdery snow shoots up as we speed across the vast open area. Depending on the reigning weather conditions, we either stop for a indoor lunch, or make our own delicacies around a campfire.

We will arrive at our hotel in the evening where we will have dinner and relax after another day of adventure.

Day 5: Grande Finale (100-200 km)

After breakfast, we set off for our final driving day. More beautiful and changing sceneries, winding tracks and great terrains. If you haven't yet had the chance for deepsnow driving, we will make sure you have an opportunity today. A nice indoor lunch will keep us going and we will arrive at our final destination in the early evening.

Our last evening shall be a special one, where we will celebrate the tour together over dinner. We will be staying the last night in Ivalo village, so there will also be a chance for a night out if you still have the energy.
