

Terms of Service

1. General provisions

GetResponse Inc., a Delaware corporation with principal office at 3 Germay Dr Ste, 5 PMB 15672, Wilmington, DE 19804 (“GetResponse”, “we”, “us”) is the provider of certain online marketing and related services known as the GetResponse Enterprise Service (the “Service”). The Service is a business-to-business service only. We conclude agreements only with customers who subscribe to the Service for purposes relating directly to their trade, business or profession. These Terms of Service (the “Terms of Service”) set the rules for the use of the Service by our customers.

2. Service

General

Under the Service we provide you with:

1. access to and use of our web-based, SaaS (Software-as-a-Service) model platform (“the Software”) as made generally available to other Customers, that allows you to create, send, manage your marketing campaigns and host mailing lists on GetResponse platform by using tools such as: Newsletter Creator, Landing Page Builder, Marketing Automation Software, and many others,
2. configuring the Software, pursuant to arrangements made between GetResponse and the Customer prior to providing full access to the Software; and
3. providing the Customer with consulting services relating to the effective use of the Software.

The Software shall include the following:

1. one main Account containing a unique sending identity and a database capable of storing and managing email lists and sending email campaigns (the “**Account**”);
2. the capability of automatic communication between GetResponse and the Customer’s system to run the Customer’s Contacts database through API;
3. IP address(es) allocated for Customer’s sole use within the Account.

You may use the Service to send emails only to those recipients who have given you permission to add them to your mailing list and have not subsequently withdrawn such permission (“Contacts”), unless you have another valid legal basis to process your Contacts’ personal data within the Service.

Account

The Account may be accessed only with the use of your login credentials. You are responsible for keeping your login credentials confidential.

Within the Account, you may create additional accounts (the “Subaccounts”) and render them available to other users of your Account (the “Users”). Creating Subaccounts for Users does not create any legal relationship between us and such Users. You are solely responsible for all Users’ activities, acts and omissions in connection with the Account and Subaccounts, as well as for your own acts and omissions. You are not entitled to sell the Subaccounts to third parties, especially as an unassisted service, without our prior consent.

You acknowledge and accept that:

1. You are solely responsible for the conduct of users of Account and Subaccounts, including but not limited to: (i) ensuring that the Users use the Service in accordance with Agreement, these Terms of Service and applicable law, (ii) the consequences of granting access and authorizations to the Account and Subaccounts and the data associated therewith, and (iii) payment of any and all fees accrued in connection with the use of the Account and Subaccounts, whether by you or any of the Users;
2. You are solely responsible for creating, suspending and terminating Subaccounts, except as otherwise provided herein;
3. You are solely responsible for assuring technical support to the Users;
4. any and all claims of the Users related to the use or non-use of the Subaccounts and the Service, as well as for their suspension and/or Agreement termination, shall be resolved solely by you; you shall indemnify and hold harmless GetResponse from any and all losses, damages, costs and expenses resulting from such claims.

Please remember that we assure technical support of a dedicated Account Manager to you, not the Users.

Free Trial

GetResponse may offer you a free trial version of the Service ("Free Trial"). We may render the Service for 14 days. It may also be limited in other ways. You may create only one Free Trial Account. You may upgrade the Free Trial to a paid version at any point. However, Accounts which have not been upgraded to a paid version within the trial period or within 30 days after the trial period ends, will be permanently disabled.

Upgrade and Downgrade

You may upgrade your Service or order an add-on at any time. If you upgrade the Service, the remuneration applicable to new Service Details will take effect immediately, with such increased remuneration calculated on a pro-rated basis, taking into account the number of days remaining in the then-current Settlement period.

If you purchase an add-on during the current Settlement period, we will align your add-on billing cycle with your payment cycle, so that the payment dates for all services under your Agreement are in line. The initial add-on will therefore be calculated in proportion to the number of days remaining until the end of the then current Settlement period.

In case of downgrade, no adjustment will be made during the current Settlement period.

Domains

In connection with the provision of the Landing Pages Builder add-on, we enable you to integrate your landing page(s) either with sub-domains provided by us or with your own domains. You are solely responsible for verification whether any selected domain or sub-domain name infringes any third party rights, as we cannot and do not perform such verification and we expressly disclaim any and all liability arising directly or indirectly in connection with any such domain or sub-domain names. We reserve the right to block any domain or sub-domain, cancel or change the name of any domain or sub-domain that you select, including but not limited to, if we are ordered to do so by a court or other governmental

authority or reasonably believe that we must do so in order to avoid infringement or violation of any third party or GetResponse right.

Webinars

The Webinar feature allows you to organize on-line conferences (“Webinars”) for a certain number of participants (“Participants”). You may use this feature for conferences in which you take part as an active Participant.

When organizing a Webinar, you are solely responsible for notifying all Participants that personal data and information disclosed during the conference can be transmitted to other Participants and third parties. You are also obliged to inform Participants that the use of the Webinar feature is subject to these Terms of Service and the GetResponse Privacy Policy, including but not limited to, applicable restrictions regarding prohibited practices and technical requirements.

You are not allowed to run more than one Webinar at a time within one Account. Please bear in mind that Webinars may be unavailable in any particular location.

Transactional Emails

The Transactional Emails feature allows you to send transactional emails to your contacts’ email addresses and check statistics of your transactional messages. You may use the feature to send transactional emails only and only to recipients who have concluded a transaction with you or have given their permission to send them those emails in any other way and have not subsequently withdrawn such permission.

Third Party Services

You may integrate certain third party services with the Service. These third party services are not provided by GetResponse. Your ability to use such third party services may be limited pursuant to the third party’s terms and conditions. When you integrate a third party service with the Service, you authorize us to exchange any of your data, whether confidential or not, with the third party service in order to enable such integration. Any links to a third party service or website that you find in the Service or on getresponse.com or any other website or web page owned or controlled by GetResponse (collectively, the “GetResponse Websites”) are provided for convenience only and we do not control or endorse any material or information found on those third party services sites.

For Transactional Emails feature third party services are essential to generate transactional emails. GetResponse only facilitates transmission of your messages. GetResponse can’t interfere with the content of your messages.

Beta-test Versions

From time to time GetResponse may offer a beta-test version of new features. This allows Customers to try new solutions we come up with and helps us better understand your needs and develop the Service accordingly. If you decide to use a feature available in beta-test version, you agree that:

1. The feature is available only for a limited period of time and can be deactivated at any time and at our sole discretion;
2. The feature is available only to a limited extent and may be modified at any time and at our sole discretion;
3. GetResponse does not warrant that any feature made available in a beta-test version will be included in the Service, we are not obliged to maintain or support any such feature, and we may cease development of any such feature at any time and at our sole discretion;
4. You are solely responsible for consequences of using the beta-test version, including but not limited to, any impact such use may have on your Account settings, set or planned campaigns, collected data and other information, or otherwise. Please remember that once we deactivate a beta-test version of a feature, certain processes that took place with respect to your Account, set or planned campaigns, collected data and other information cannot be reversed, and GetResponse shall bear no responsibility or liability for any consequence resulting therefrom;
5. At the end of a beta-test version period, one or more beta-tested features may be made available for a separate fee (e.g. as a paid add-on), or as a component of the Service.

you represent and warrant that in using the Service, in particular in creating lists of Contacts, sending e-mails and collecting personal data, you comply with all personal data protection, privacy, and electronic communication regulations applicable in the EEA and its member states. In particular you are obliged to:

1. clearly inform data subjects about means and purposes of the processing of personal data, including for processing in the Service;

3. agree to indemnify and hold GetResponse harmless from any losses resulting from breach of the above warranties and obligations.

By accepting these Terms of Service you engage GetResponse in processing of the personal data necessary to provide you with the Service on terms and conditions stipulated in Data Processing Agreement, which constitutes an integral part of these Terms of Service.

[Data Processing Agreement](#)

This Agreement is also available to download in the Customer's Account at any time.

To the extent GetResponse receives from you any personal information (as defined by the California Consumer Protection Act of 2018 (the "CCPA"), for the sake of this section defined as the "Personal Information") of any "consumer" (in the meaning assigned thereto by the CCPA) for processing, GetResponse and you acknowledge that we shall serve as a service provider in the meaning of the CCPA, and as such, we shall not:

- i. retain, use or disclose the Personal Information for any purpose other than for the specific purpose of performing Service under the Agreement or as otherwise permitted by the CCPA, including for any "business purpose", as defined by the CCPA;
- ii. retain, use or disclose the Personal Information for any "commercial purpose" (as defined by the CCPA), other than providing the Service under the Agreement or as otherwise permitted by the CCPA;
- iii. "sell" (as defined by the CCPA) Personal Information.

The role of GetResponse shall be limited to providing you with the Service tools to be used for the purpose of Personal Information processing. We do not have any impact on the scope of the Personal Information you process in the Service; and except for specifying the minimum scope of the Personal Information required for the proper use of the Service, GetResponse does not determine the purposes and means of processing, does not monitor the scope of these data or the lawfulness of the basis for its processing, nor does it check if you processes them correctly.

You agree that in case we receive a request from your Contact, who wants to exercise his/her rights under the CCPA, we shall inform such Contact that GetResponse acts as a service provider, and further GetResponse shall direct such Contact to you being an entity that determines the purposes and means of the processing of Personal Information.

While it is your responsibility to satisfy the requests of consumers, and to prepare replies thereto, we, to the best of our abilities and to a reasonable extent, shall reasonably support you, in fulfilling your obligations, in particular through the application of appropriate technical and organizational measures necessary for you to support the exercise of the consumers' rights under the CCPA.

By subscribing to the Service, you represent and warrant that:

1. you are not located in Cuba, North Korea, Syria, or any other country that is subject to a U.S government embargo, or that has been designated by the U.S. government as a "terrorist-supporting" country; and
2. you are not listed on any U.S. government list of prohibited or restricted parties.

5. Remuneration

You are obliged to timely pay all applicable fees for your use of the Service. Access to the Service is provided to you after we have received the applicable fee.

Remuneration for the use of Service is based on subscription purchased and not an actual usage. Not using the Service, irrespective of cause, does not entitle you to reduce remuneration. Similarly, you are not entitled to reduce remuneration if late access to the service or lack of ability to use the service is caused by you.

All payments are non-refundable. The unused Service limits, like Email Volume Allowance, or Contacts List Size are not transferred to subsequent Settlement periods.

If you exceed limits of your Account set forth in your Agreement, you will have to pay Additional Fee. Remuneration for exceeded Users and Subaccounts Limit in a given Settlement period is calculated based on the peak number of accounts - Account and Subaccounts and their individual Users who were active (*i.e.* the User's status was set in position "ON" in the Account or Subaccounts) in any moment during the given Settlement period.

If we determine remuneration basing on number of Contacts' email addresses, we will monitor for the peak number of your Contacts' e-mail addresses accumulated in all your campaigns, Account and Subaccounts in a given Settlement period, which means that Contacts are unique within each campaign, but not within the entire Account and Subaccounts. To determine remuneration due in a given Settlement period, the highest number of the Contacts' email addresses is taken into account. Downgrade of the number of email addresses within a given Settlement period does not change remuneration for the use of the Service.

You shall be in default if we don't receive payment by the due date. If you are in default of payment we will be entitled to charge interest and exercise other rights as defined herein.

6. Payment Terms

All fees due to GetResponse shall be paid by bank wire transfer, ACH or credit card, subject to restrictions on certain payment methods depending on your country, by the applicable due date, based on a payment note issued by GetResponse. We will indicate the bank account to which the payment shall be transmitted.

If you add credit card to your available methods of payments, you hereby agree that all amounts then due to GetResponse shall be paid automatically by credit card on the first day

of each applicable Settlement period. In the event that the credit card you provided us expires or any credit card information changes or becomes out of date, in order to procure continuity and avoid Service interruptions, you hereby authorize us to obtain or determine updated or replacement information, in particular expiration dates or credit card number, and to continue billing on the same terms using the updated or replacement information. We are not responsible for any fees charged by payment services providers.

All fees are exclusive of taxes. Where appropriate, value added tax (VAT), goods and services tax (GST) or any other tax on sales (irrespective of designation of the tax adopted in various jurisdictions) will be added to the payment price in accordance with currently effective rates. You agree to pay any taxes applicable to your use of the Service. You represent that you are registered for VAT or GST purposes in your country. At our request, you will provide us with the VAT or GST registration number under which you are registered. If you are required to deduct or withhold any tax, you must pay the amount deducted or withheld as required by law and pay us an additional amount so that we receive payment in full as if there were no deduction or withholding.

Please note that some taxes depend on the region, province, state, town or district where you are located. You need to provide us with your correct address at all times, as we do not bear any responsibility resulting from wrong calculation of taxes due to inaccurate or wrong indication of address by you.

When you pay on the basis of payment note via wire transfer or ACH the term "Settlement period" shall mean a monthly period, and the first Settlement period shall begin on Commencement Date indicated in the Agreement. If you add a credit card to the available methods of payment, the term "Settlement period" shall mean each successive period of 30 (thirty) consecutive calendar days, starting on the day a credit card has been added.

The Customer is entitled to terminate Agreement if GetResponse breaches the material provisions of Agreement. The Customer undertakes to call GetResponse to change the way of performing Agreement within 14 (fourteen) days timeframe, upon ineffective expiration of which the Customer will be entitled to terminate Agreement.

Termination and suspension as well as downgrade of the Service or any of its parts or features may affect your Account, set or planned campaigns, collected data and other information, or related matters. Once the Service or any of its parts or features are terminated, suspended or downgraded, certain processes that took place with respect to your Account, set or planned campaigns, collected data and other information, cannot be reversed. In the aforementioned situations, without in any way limiting the disclaimers and limitations in Section 15, under no circumstance shall we be liable for the consequences of any measures taken pursuant to this paragraph.

Sending email's blockade and the suspension of the Account (or part thereof) does not release you from the obligation to pay remuneration for the blockade/suspension period. GetResponse ensures however, that the blockade or suspension period won't take longer than 7 working days. After that period GetResponse shall bring the possibility of sending emails or the Account back or terminate the Agreement.
