

BUSINESS SUPPORT

GatePass – delivery notifications management application for Amcor

CASE STUDY

MakoLab

Client

Amcor is a global leader in developing and producing high-quality, responsible packaging for a variety of food, beverage, pharmaceutical, medical-device, home and personal-care and other products.

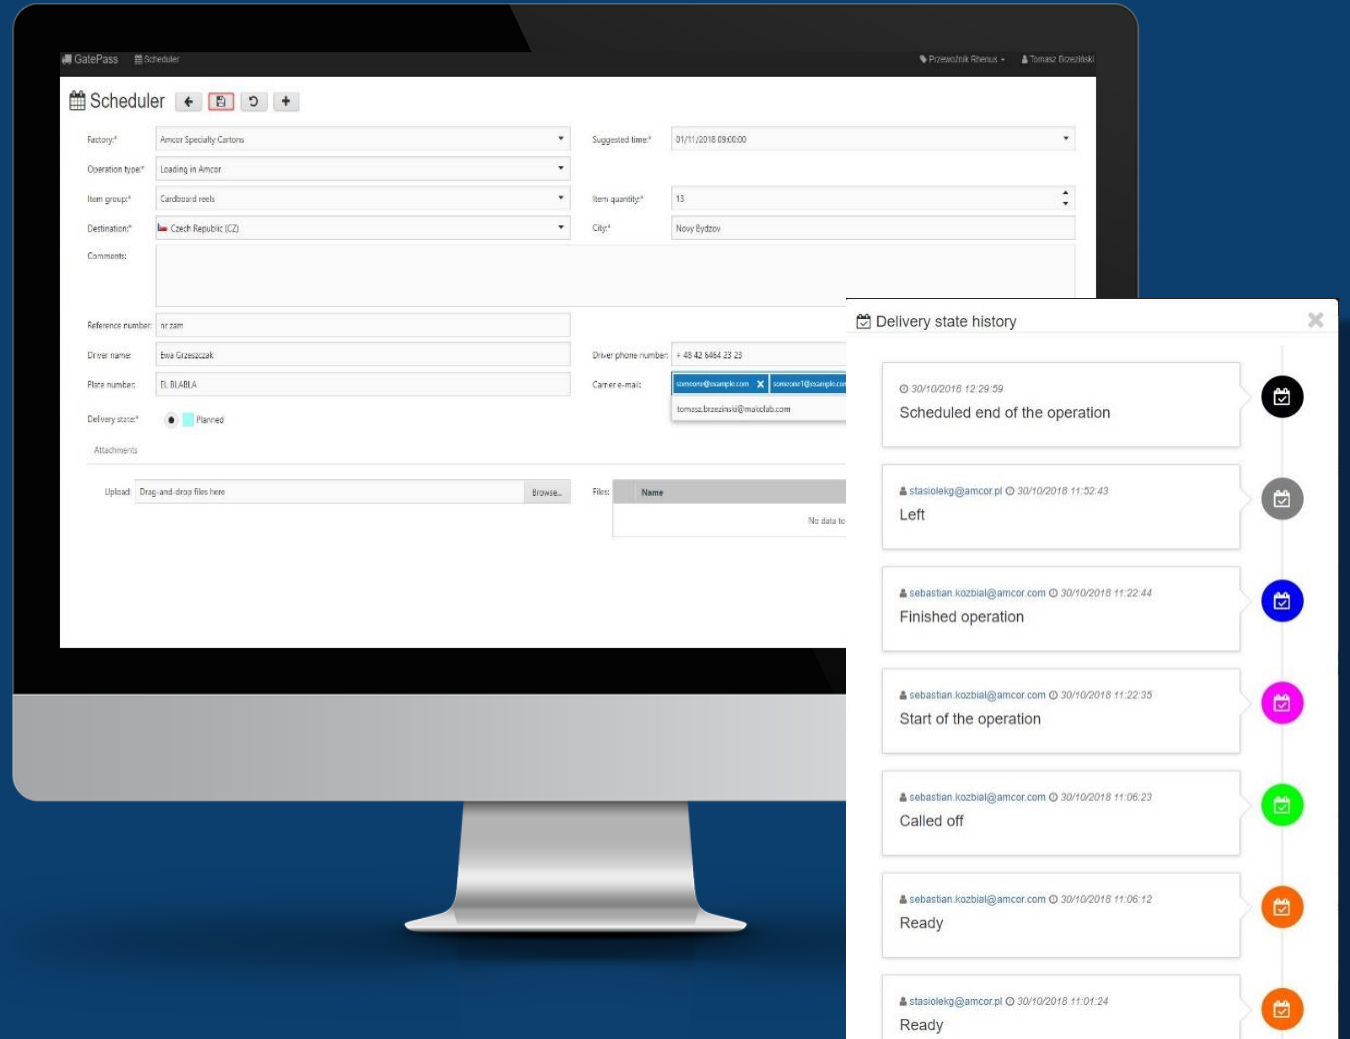

Goal

Improvement of timing and efficiency of cooperation with the factory component suppliers by streamlining the factory transport gatepassing process.

Solution

A comprehensive application that fully automates the factory gatepassing process – beginning with the transport delivery notification acceptance and management via intuitive forms, delivery servicing and ending with the transport loading and leaving the factory. Equipped with numerous functionalities for efficient and flexible management of a huge number of notifications.
